## 2017 Election Candidate Biographies

Billy Pepper

I am seeking a position on the AAFPO Board for two reasons, to be more involved and have a better understanding of the community I live in. My family and I have used Angel Fire as our playground since the early 2000's and are lucky to now call it home. My wife and I both teach at Eagle Nest Elementary School. When not at work you can find me in the great outdoors biking, hiking, boarding or enjoying a youth soccer match.

Please consider me for candidacy I would be honored to represent you on the board for this term.

Rick Hooker

My name is Rick Hooker. My wife is Nancy Hooker. We are full time residents of Angel Fire. We are both involved with different groups in Angel Fire. We moved from Texas over three years ago. We have four kids and ten grandkids.

I am retired. I have a Bachelor's Degree in Architecture and a Master's Degree in Landscape Architecture, both from The University of Texas at Arlington. Currently a Deacon at Angel Fire Baptist Church, President of Angel Fire Pickleball Club and USAPA Ambassador for pickleball in Angel Fire.

I owned and sold a plastic injection molding business in Texas. Love to work outside and have fun outside. I fish, play tennis and pickleball, hike, snow board, snow shoe, and enjoy getting together with friends.

The AAFPO board members are the decision makers for how the money is spent on the amenities for the Property Owners in Angel Fire. It is very important that the amenities are kept up and improved for the current property owners and new property owners we wish to attach to our resort area. I can help with ideas to maintain and improve our amenities.

## 2017 Election Candidate Biographies

Marty Carpenter

After skiing here since the late 1970s, my wife, Ruth Ann, and I purchased a condo in 2015 and will be moving into a home on Preston Trail next month (June 2017).

We have both traveled extensively as she graduated high school in Singapore and I in Stuttgart Germany. I am a Texan by birth and she an "Okie" from Pawhuska. We are Sooner, OSU Cowboy and Longhorn fans.

After earning several Degree's and my MBA in Oklahoma, I completed a 40-year sales career before we retired as full-time residents in Angel Fire. I sold technology, including large scale mainframe computer systems to Government organizations for corporations such as SGI, Cray, Unisys, Siemens, Wang, Xerox and General Electric. Consequently, my career followed many "projects" worldwide so the question was always for "whom" would I be working for, and which "time zone" would I work in each day. I believe those years of career diversity will be a benefit to the Angel Fire POA considering the numerous amenities made available here during all seasons.

We are busy involving ourselves in the many activities and organizations of Angel Fire, and we love our neighbors, friends and the United Church. I'm also a passionate skier and about all I can say about golf is that: 1) I come from a family of fanatical players; and 2) I do own my own clubs. Constructive comments are always welcomed whenever someone is willing to play a round of golf with me.
