

Village of Angel Fire Wildfire Committee

Entomologist Andrew Graves from USFS Region 3 is presenting issues about forest health in our area particular bug kill in our local forests. The presentation starts at 11am October 10th at the Angel fire community center at 15 CS Ranch Road and will last roughly 3-4 hours. The talk will be a combination of classroom and outside demonstration at a place to be determined. Also, a couple of other USFS specialists will talk about other forest issues such as overall health of the forest, fire hazards, and identifying hazardous trees
